

CITATION: "Pulselli F.M., Patrizi, N., (2020). EUSTEPs Students' teaching module. Class exercise 2 for Unit 3: "Connecting SDGs and your University"

Class exercise 2- Connecting SDGs and your University

Objective
Understanding the connection between SDGs and university and realization of the world as an interconnected whole
Instructions
<p>We propose students a particular experience as a class exercise 2, entitled "SDGs and your institution". Once the SDGs have been introduced, the exercise for students consists of identifying the relationship between their own university, both as an institution aspect and the physical spaces (buildings, community, services, etc.) and each SDG. The work can be carried out individually or in pairs and everyone (or every group) should provide a brief discussion in the classroom by illustrating at least two examples as follows:</p> <ol style="list-style-type: none"> 1) To choose 2 examples from university characteristics that are taken from "their own university" 2) To describe how these examples are relevant to SDGs (and which SDGs) and how they can improve their university towards SDGs.
<p>The following questions can be discussed within the teacher-students or students-students</p>

<p>(however, the teachers can discuss other questions based on their willing):</p> <ol style="list-style-type: none"> 1) What is the sense of the connection between SDGs and your university? 2) Which SDGs are more connected to your examples? Why? (Medium difficulty) 3) What about universities and Goal 4, education, in general? (Easy) 4) What about university and Goal 3, health, in general? (Medium difficulty) 5) What about university and Goal 5, gender equality, in general? (Difficult) 6) How can we look at SDGs as a part of the whole at university as well as our daily life?
<p>Recommendation: Invite students to use creativity and fantasy without being afraid to make mistakes. The teacher could also moderate a possible discussion among students. Sometimes, very surprising observations emerge from the students.</p>
