The EUSTEPs Module and training courses

PILLAR AND PREREQUISITE

... is primarily intended for under-graduate students – **for all levels and course/degree types** – and postgraduate students.

It is also the basis upon which dissemination is possible:
educators/teachers and administrative staff

the EUSTEPs teaching module adopts the **Ecological Footprint** as a tool to express values and give important messages on our life on this planet, the only one we have.

TRANSDISCIPLINARITY

JUST ONE PLANET

To summarize, we act

***WITHIN the BIOPHYSICAL LIMITS of the
PLANET***

but

***BEYOND the BOUNDARIES
of DISCIPLINES***

The EUSTEPs Module and training courses

EUSTEPs Module for Students

6 to 12 academic hours (45')

- Applies Within **any courses and degrees**
- Pilot Module and Modified Module
- Available on 4 languages
